

## About

Mobile technology is advancing. With larger, more user-friendly screens and faster processing speeds, the ability to download and stream content has never been easier or more convenient.

When you have new content available - why not make it available via mobile? Provide short video clips that your audience will pay to download to their mobile device while you make money and gain valuable exposure at the same time!

## We Provide

- Access to pre-negotiated deals with online and mobile services
- Worldwide distribution - U.S., Europe, Asia, North and South America
- Monthly, consolidated royalty and sales reports
- Content distribution within 2 to 10 weeks

Get paid to **promote your products!**

Mobile distribution allows filmmakers to distribute **shorts & movie clips directly to the end-user's mobile**

Your video clips are **directly** downloaded to your viewer's mobile device.
